CURTISS-WRIGHT CORPORATION and SUBSIDIARIES
NOTES to CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. BASIS OF PRESENTATION

Curtiss-Wright Corporation along with its subsidiaries ("we," the "Corporation," or the "Company") is a global integrated business that provides highly engineered products, solutions, and services mainly to aerospace & defense (A&D) markets, as well as critical technologies in demanding commercial power, process, and industrial markets.

The unaudited condensed consolidated financial statements include the accounts of Curtiss-Wright and its majority-owned subsidiaries. All intercompany transactions and accounts have been eliminated.

The unaudited condensed consolidated financial statements of the Corporation have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted as permitted by such rules and regulations.

Management is required to make estimates and judgments that affect the reported amount of assets, liabilities, revenue, and expenses and disclosure of contingent assets and liabilities in the accompanying financial statements. Actual results may differ from these estimates. The most significant of these estimates includes the estimate of costs to complete using the over-time revenue recognition accounting method, pension plan and postretirement obligation assumptions, estimates for inventory obsolescence, fair value estimates around assets and assumed liabilities from acquisitions, estimates for the valuation and useful lives of intangible assets, legal reserves, and the estimate of future environmental costs. Changes in estimates of contract sales, costs, and profits are recognized using the cumulative catch-up method of accounting. This method recognizes in the current period the cumulative effect of the changes on current and prior periods. Accordingly, the effect of the changes on future periods of contract performance is recognized as if the revised estimate had been the original estimate. During the three and six months ended June 30, 2024 and 2023, there were no significant changes in estimated contract costs. In the opinion of management, all adjustments considered necessary for a fair presentation have been reflected in these financial statements.

The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation's 2023 Annual Report on Form 10-K. The results of operations for interim periods are not necessarily indicative of trends or of the operating results for a full year.

New Accounting Pronouncements Not Yet Adopted

In November 2023, the Financial Accounting Standards Board ("FASB") issued ASU No. 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures ("ASU 2023-07"), which requires disclosure of significant reportable segment expenses that are regularly provided to the chief operating decision-maker ("CODM") and included within the Corporation's measure of segment profit or loss. ASU 2023-07 also requires that all disclosures around segment profit or loss and assets be provided on both an annual and interim basis. ASU 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted. ASU 2023-07 is required to be applied on a retrospective basis for all periods presented. The Corporation is currently evaluating the impact of adopting this standard on its financial statements, but does not expect it to have a material impact on its consolidated financial position, results of operations, or cash flows.

2. REVENUE

The Corporation recognizes revenue when control of a promised good and/or service is transferred to a customer in an amount that reflects the consideration that the Corporation expects to be entitled to in exchange for that good and/or service.

Performance Obligations

The Corporation identifies a performance obligation for each promise in a contract to transfer a distinct good or service to the customer. As part of its assessment, the Corporation considers all goods and/or services promised in the contract, regardless of whether they are explicitly stated or implied by customary business practices. The Corporation's contracts may contain either a single performance obligation, including the promise to transfer individual goods or services that are not separately distinct within the context of the respective contracts, or multiple performance obligations. For contracts with multiple performance obligations, the Corporation allocates the overall transaction price to each performance obligation using standalone selling prices, where available, or utilizes estimates for each distinct good or service in the contract where standalone prices are not available.

CURTISS-WRIGHT CORPORATION and SUBSIDIARIES
NOTES to CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

The Corporation's performance obligations are satisfied either at a point-in-time or on an over-time basis. Typically, over-time revenue recognition is based on the utilization of an input measure used to measure progress, such as costs incurred to date relative to total estimated costs. If a performance obligation does not qualify for over-time revenue recognition, revenue is then recognized at the point-in-time in which control of the distinct good or service is transferred to the customer, typically based upon the terms of delivery.

The following table illustrates the approximate percentage of revenue recognized for performance obligations satisfied over-time versus at a point-in-time for the three and six months ended June 30, 2024 and 2023:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2024	2023	2024	2023
Over-time	50 %	46 %	50 %	47 %
Point-in-time	50 %	54 %	50 %	53 %

Contract backlog represents the remaining performance obligations that have not yet been recognized as revenue. Backlog includes deferred revenue and amounts that will be invoiced and recognized as revenue in future periods. Total backlog was approximately \$3.2 billion as of June 30, 2024, of which the Corporation expects to recognize approximately 88% as net sales over the next 36 months. The remainder will be recognized thereafter.

Disaggregation of Revenue

The following table presents the Corporation's total net sales disaggregated by end market and customer type:

Total Net Sales by End Market and Customer Type

Contract Balances

Timing of revenue recognition and cash collection may result in billed receivables, unbilled receivables (contract assets), and deferred revenue (contract liabilities) on the Condensed Consolidated Balance Sheet. The Corporation's contract assets primarily relate to its rights to consideration for work completed but not billed as of the reporting date. Contract assets are transferred to billed receivables when the rights to consideration become unconditional. This is typical in situations where amounts are billed as work progresses in accordance with agreed-upon contractual terms or upon achievement of contractual milestones. The Corporation's contract liabilities primarily consist of customer advances received prior to revenue being earned. Revenue recognized during the three and six months ended June 30, 2024 included in the contract liabilities balance as of January 1, 2024 was approximately \$71 million and \$161 million, respectively. Revenue recognized during the three and six months ended June 30, 2023 included in the contract liabilities balance as of January 1, 2023 was approximately \$58 million.

(UNAUDITED)

and \$147 million, respectively. Contract assets and contract liabilities are reported in the "Receivables, net" and "Deferred revenue" lines, respectively, within the Condensed Consolidated Balance Sheet.

3. ACQUISITIONS

The Corporation continually evaluates potential acquisitions that either strategically fit within the Corporation's existing portfolio or expand the Corporation's portfolio into new product lines or adjacent markets. The Corporation has completed numerous acquisitions that have been accounted for as business combinations and have resulted in the recognition of goodwill in the Corporation's financial statements. This goodwill arises because the acquisition purchase price reflects the future earnings and cash flow potential in excess of the earnings and cash flows attributable to the current product and customer set at the time of acquisition. Thus, goodwill inherently includes the know-how of the assembled workforce, the ability of the workforce to further improve the technology and product offerings, and the expected cash flows resulting from these efforts. Goodwill may also include expected synergies resulting from the complementary strategic fit these businesses bring to existing operations.

The Corporation allocates the purchase price at the date of acquisition based upon its understanding of the fair value of the acquired assets and assumed liabilities. In the months after closing, as the Corporation obtains additional information about these assets and liabilities, including through tangible and intangible asset appraisals, and as the Corporation learns more about the newly acquired business, it is able to refine the estimates of fair value and more accurately allocate the purchase price. Only items identified as of the acquisition date are considered for subsequent adjustment. The Corporation will make appropriate adjustments to the purchase price allocation prior to completion of the measurement period, as required.

During the six months ended June 30, 2024, the Corporation acquired one business for an aggregate purchase price of \$34 million. The Condensed Consolidated Statement of Earnings for the six months ended June 30, 2024 includes \$2 million of total net sales and \$1 million of net losses from the Corporation's 2024 acquisition. During the six months ended June 30, 2023, the Corporation did not complete any acquisitions.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the date of acquisition for the acquisition consummated during the six months ended June 30, 2024.

2024 Acquisition

WSC Inc. (WSC)

On April 1, 2024, the Corporation completed the acquisition of WSC for \$34 million. The Share Purchase Agreement contains representations and warranties customary for a transaction of this type, including a portion of the purchase price deposited in escrow as security for potential indemnification claims against seller. The acquired business, which operates within the Naval & Power segment, is a provider of simulation technology that supports the design, commissioning, and reliable operation of commercial nuclear power generation and process plants. The acquisition is subject to post-closing adjustments with the purchase price allocation not yet complete.

Ultra Nuclear Limited and Weed Instrument Co., Inc. (Ultra Energy)

On June 3, 2024, the Corporation announced that it entered into an agreement to acquire the stock of Ultra Energy, a subsidiary of Ultra Electronics, for \$200 million in cash. Ultra Energy is a designer and manufacturer of reactor protection systems, neutron monitoring systems, radiation monitoring systems, and temperature and pressure sensors. The acquisition is expected to close in the third quarter of 2024, subject to UK regulatory approval, with the acquired business to operate within the Naval & Power segment.

4. RECEIVABLES

Receivables primarily include amounts billed to customers, unbilled charges on long-term contracts consisting of amounts recognized as sales but not billed, and other receivables. Substantially all amounts of unbilled receivables are expected to be billed and collected within one year. An immaterial amount of unbilled receivables are subject to retainage provisions. The amount of claims and unapproved change orders within our receivables balances are immaterial.

The composition of receivables is as follows:

<i>(In thousands)</i>	June 30, 2024	December 31, 2023
Billed receivables:		
Trade and other receivables	\$ 474,989	\$ 427,830

5. INVENTORIES

Inventoried costs contain amounts relating to long-term contracts and programs with long production cycles, a portion of which will not be realized within one year. Long-term contract inventory includes an immaterial amount of claims or other similar items subject to uncertainty concerning their determination or realization. Inventories are valued at the lower of cost or net realizable value.

The composition of inventories is as follows:

<i>(In thousands)</i>	June 30, 2024	December 31, 2023
Raw materials	\$ 261,010	\$ 239,313
Work-in-process	120,540	103,750

6. GOODWILL

The Corporation accounts for acquisitions by assigning the purchase price to acquired tangible and intangible assets and liabilities assumed. Assets acquired and liabilities assumed are recorded at their fair values, and the excess of the purchase price over the amounts assigned is recorded as goodwill.

7. OTHER INTANGIBLE ASSETS, NET

Intangible assets are generally the result of acquisitions and consist primarily of purchased technology and customer related intangibles. Intangible assets are amortized over useful lives that range between 1 to 20 years.

The following tables present the cumulative composition of the Corporation's intangible assets:

<i>(In thousands)</i>	June 30, 2024			December 31, 2023		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

Interest Rate Risks and Related Strategies

The Corporation's primary interest rate exposure results from changes in U.S. dollar interest rates. The Corporation's policy is to manage interest cost using a mix of fixed and variable rate debt.

Debt

The estimated fair value amounts were determined by the Corporation using available market information that is primarily based on quoted market prices for the same or similar issuances as of June 30, 2024. Accordingly, all of the Corporation's debt

Net periodic pension cost	\$ (3,424)	\$ (2,867)	\$ (6,844)	\$ (5,726)

The Corporation did not make any contributions to the Curtiss-Wright Pension Plan during the six months ended June 30, 2024, and does not expect to do so throughout the remainder of the year. Contributions to the foreign benefit plans are not expected to be material in 2024.

Defined Contribution Retirement Plan

The Company also maintains a defined contribution plan for all non-union employees who are not currently receiving final or career average pay benefits for its U.S. subsidiaries. The employer contributions include both employer match and non-elective contribution components up to a maximum employer contribution of 7% of eligible compensation. During the three and six months ended June 30, 2024, the expense relating to the plan was \$6.7 million and \$14.3 million, respectively. During the three and six months ended June 30, 2023, the expense relating to the plan was \$6.1 million and \$12.2 million, respectively.

10. EARNINGS PER SHARE

Diluted earnings per share was computed based on the weighted-average number of shares outstanding plus all potentially dilutive common shares. A reconciliation of basic to diluted shares used in the earnings per share calculation is as follows:

<i>(In thousands)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
Basic weighted-average shares outstanding	38,302	38,329	38,273	38,309
Dilutive effect of deferred stock compensation	199	226	187	219
Diluted weighted-average shares outstanding	38,501	38,555	38,460	38,528

For the three and six months ended June 30, 2024, there were approximately 39,000 and 49,000 shares, respectively, issuable under equity-based awards that were excluded from the calculation of diluted earnings per share as they were anti-dilutive based on the average stock price during the period. There were approximately 20,000 and 22,000 anti-dilutive equity-based awards for the three and six months ended June 30, 2023, respectively.

11. SEGMENT INFORMATION

The Corporation's measure of segment profit or loss is operating income. Interest expense and income taxes are not reported on an operating segment basis as they are not considered in the segments' performance evaluation by the Corporation's chief operating decision-maker, its Chief Executive Officer.

Net sales and operating income by reportable segment were as follows:

13. CONTINGENCIES AND COMMITMENTS

From time to time, the Corporation and its subsidiaries are involved in legal proceedings that are incidental to the operation of our business. Some of these proceedings allege damages relating to asbestos and environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues, commercial or contractual disputes, and acquisitions or divestitures. The Corporation continues to defend vigorously against all claims. Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including assessment of the merits of the particular claim, as well as current accruals and insurance coverage, the Corporation does not expect that such legal proceedings will have a material adverse impact on its condensed consolidated financial statements.

Legal Proceedings

The Corporation has been named in a number of lawsuits that allege injury from exposure to asbestos. To date, the Corporation has not been found liable for or paid any material sum of money in settlement in any asbestos-related case. The Corporation believes its minimal use of asbestos in its past operations as well as its acquired businesses' operations and the relatively non-

friable condition of asbestos in its historical products makes it unlikely that it will face material liability in any asbestos litigation, whether individually or in the aggregate. The Corporation maintains insurance coverage and indemnification agreements for these potential liabilities and believes adequate coverage exists to cover any unanticipated asbestos liability.

Letters of Credit and Other Financial Arrangements

The Corporation enters into standby letters of credit agreements and guarantees with financial institutions and customers primarily relating to guarantees of repayment, future performance on certain contracts to provide products and services, and to secure advance payments from certain international customers. As of June 30, 2024 and December 31, 2023, there were \$18 million and \$20 million of stand-by letters of credit outstanding, respectively, and \$11 million and \$16 million of bank guarantees outstanding, respectively. In addition, the Corporation is required to provide the Nuclear Regulatory Commission financial assurance demonstrating its ability to cover the cost of decommissioning its Cheswick, Pennsylvania facility upon closure, though the Corporation does not intend to close this facility. The Corporation has provided this financial assurance in the form of a \$35 million surety bond.

14. RESTRUCTURING COSTS

During the quarter ended June 30, 2024, the Corporation executed restructuring activities across all of its segments to support its ongoing effort of improving operating efficiency ("2024 Restructuring Program"). These activities, which primarily include workforce reductions, consolidation of facilities, and costs related to legal entity restructuring, resulted in pre-tax charges of approximately \$4 million for the three and six months ended June 30, 2024. The Company anticipates that these actions will be substantially completed by June 30, 2025.

The following tables summarize the respective balances related to these restructuring activities by both reportable segment as well as on a consolidated basis:

FORWARD-LOOKING STATEMENTS

Except for historical information, this Quarterly Report on Form 10-Q may be deemed to contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Examples of forward-looking statements include, but are not limited to: (a) projections of or statements regarding return on investment, future earnings, interest income, sales, volume, other income, earnings or loss per share, growth prospects, capital structure, liquidity requirements, and other financial terms, (b) statements of plans and objectives of management, (c) statements of future economic performance, (d) impacts on our business relating to ongoing supply chain delivery disruptions, significant inflation, higher interest rates or deflation, and measures taken by governments and private industry in response, as well as related to the conflict between Russia and Ukraine and the Israel and Hamas War, and the related sanctions, (e) the effect of laws, rules, regulations, tax reform, new accounting pronouncements, and outstanding litigation on our business and future performance, and (f) statements of assumptions, such as economic conditions underlying other statements. Such forward-looking statements can be identified by the use of forward-looking terminology such as “anticipates,” “believes,” “continue,” “could,” “estimate,” “expects,” “intend,” “may,” “might,” “outlook,” “potential,” “predict,” “should,” “will,” as well as the negative of any of the foregoing or variations of such terms or comparable terminology, or by discussion of strategy. No assurance may be given that the future results described by the forward-looking statements will be achieved. While we believe these forward-looking statements are reasonable, they are only predictions and are subject to known and unknown risks, uncertainties, and other factors, many of which are beyond our control, which could cause actual results, performance, or achievement to differ materially from anticipated future results, performance, or achievement expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, those described in “Item 1A. Risk Factors” of our 2023 Annual Report on Form 10-K filed with the SEC, and elsewhere in that report, those described in this Quarterly Report on Form 10-Q, and those described from time to time in our future reports filed with the Securities and Exchange Commission and other written or oral statements made or released by us. Such forward-looking statements in this Quarterly Report on Form 10-Q include, without limitation, those contained in Item 1. Financial Statements (including the Notes to Condensed Consolidated Financial Statements) and Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date they were made, and we assume no obligation to update forward-looking statements to reflect actual results or changes in or additions to the factors affecting such forward-looking statements.

PART I - ITEM 2
MANAGEMENT'S DISCUSSION and ANALYSIS of
FINANCIAL CONDITION and RESULTS OF OPERATIONS, continued

COMPANY ORGANIZATION

Curtiss-Wright Corporation along with its subsidiaries is a global integrated business that provides highly engineered products, solutions, and services mainly to aerospace & defense markets, as well as critical technologies in demanding commercial power, process, and industrial markets. We report our operations through our Aerospace & Industrial, Defense Electronics, and Naval & Power segments. We operate across a diversified array of niche markets through engineering and technological leadership, precision manufacturing, and strong relationships with our customers. Approximately 68% of our 2024 revenues are expected to be generated from A&D-related markets.

RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand the results of operations and financial condition of the Corporation for the three and six month periods ended June 30, 2024. The financial information as of June 30, 2024 should be read in conjunction with the financial statements for the year ended December 31, 2023 contained in our Form 10-K.

The MD&A is organized into the following sections: Condensed Consolidated Statements of Earnings, Results by Business Segment, and Liquidity and Capital Resources. Our discussion will be focused on the overall results of operations followed by a more detailed discussion of those results within each of our reportable segments.

Our three reportable segments are generally concentrated in a few end markets; however, each may have sales across several end markets. An end market is defined as an area of demand for products and services. The sales for the relevant markets will be discussed throughout the MD&A.

During the quarter ended June 30, 2024, we commenced our 2024 Restructuring Program across all of our segments in an effort to improve operating efficiency. These actions, which primarily include workforce reductions, consolidation of facilities, and costs related to legal entity restructuring, resulted in pre-tax charges of approximately \$4 million for the quarter and six months ended June 30, 2024. The Company anticipates that these actions, which are expected to be substantially completed by June 30, 2025, will result in annual operating cost savings of approximately \$10 million.

Analytical Definitions

Throughout management's discussion and analysis of financial condition and results of operations, the terms "incremental" and "organic" are used to explain changes from period to period. The term "incremental" is used to highlight the impact that acquisitions and divestitures had on the current year results. The results of operations for acquisitions are incremental for the first twelve months from the date of acquisition. The definition of "organic" excludes the effects of costs associated with our 2024 Restructuring Program and foreign currency translation.

Sales in the second quarter increased \$80 million, or 11%, to \$785 million, compared with the prior year period. On a segment basis, sales from the Aerospace & Industrial, Defense Electronics, and Naval & Power segments increased \$7 million, \$31 million, and \$42 million, respectively.

Sales during the six months ended June 30, 2024 increased \$163 million, or 12%, to \$1,498 million, compared with the prior year period. On a segment basis, sales from the Aerospace & Industrial, Defense Electronics, and Naval & Power segments increased \$24 million, \$80 million, and \$59 million, respectively. Changes in sales by segment are discussed in further detail in the results by business segment section below.

PART I - ITEM 2
MANAGEMENT'S DISCUSSION and ANALYSIS of
FINANCIAL CONDITION and RESULTS OF OPERATIONS, continued

Operating income in the second quarter increased \$16 million, or 14%, to \$129 million, while operating margin increased 40 basis points to 16.4% compared with the same period in 2023. Operating income and operating margin in the Defense Electronics segment benefited from favorable overhead absorption on higher sales, favorable mix on defense electronics and tactical communications products, as well as the benefit of cost containment initiatives. In the Aerospace & Industrial segment, operating income was essentially flat while operating margin decreased, as favorable overhead absorption on higher sales was essentially offset by current period restructuring costs. In the Naval & Power segment, both operating income and operating margin decreased, as favorable overhead absorption on higher sales as well as the absence of first year purchase accounting costs from our arresting systems acquisition was more than offset by unfavorable product mix and the timing of development programs.

Operating income during the six months ended June 30, 2024 increased \$37 million, or 20%, to \$229 million, and operating margin increased 100 basis points to 15.3%, compared with the same period in 2023. In the Defense Electronics segment, increases in operating income and operating margin were primarily due to favorable overhead absorption on higher sales, favorable mix on defense electronics and tactical communications products, as well as the benefit of cost containment initiatives. In the Aerospace & Industrial segment, operating income increased while operating margin decreased, as favorable overhead absorption on higher sales was essentially offset by current period restructuring costs as well as unfavorable mix on actuation products. Both operating income and operating margin in the Naval & Power segment decreased, as favorable overhead absorption on higher sales as well as the absence of first year purchase accounting costs from our arresting systems acquisition was more than offset by an unfavorable naval contract adjustment as well as unfavorable product mix.

Non-segment operating expense in the second quarter decreased \$2 million, or 15%, to \$11 million, primarily due to lower foreign currency losses in the current period. Non-segment operating expense during the six months ended June 30, 2024 of \$22 million was essentially flat against the comparable prior year period.

Interest expense in the second quarter and six months ended June 30, 2024 decreased \$4 million, or 25% to \$11 million and \$6 million, or 22%, to \$22 million, respectively, primarily due to lower borrowings under our revolving Credit Agreement (the "Credit Agreement" or "credit facility"). Interest expense for the six months ended June 30, 2024 also benefited from the repayment of our 2013 Notes in February 2023.

Other income, net in the second quarter and six months ended June 30, 2024 increased \$1 million, or 8%, to \$9 million, and \$2 million, or 16%, to \$18 million, respectively, primarily due to lower overall pension costs against the comparable prior year periods.

The effective tax rate of 21.2% in the second quarter decreased compared to an effective tax rate of 23.4% in the prior year period. The effective tax rate of 21.9% for the six months ended June 30, 2024 decreased as compared to an effective tax rate of 23.1% in the prior year period. Decreases in both of the comparable periods were primarily due to the benefits of a legal entity restructuring as well as lower provisional tax expense associated with foreign withholding taxes in the current year.

Comprehensive income in the second quarter was \$94 million, compared to comprehensive income of \$100 million in the prior year period. The change was primarily due to the following:

- Foreign currency translation adjustments in the second quarter resulted in a \$5 million comprehensive loss, compared to a \$19 million comprehensive gain in the prior year period. The comprehensive loss during the current period was primarily attributed to decreases in the Canadian dollar and British Pound.
- Net earnings increased \$18 million, primarily due to higher operating income and lower interest expense.

Comprehensive income during the six months ended June 30, 2024 was \$156 million, compared to comprehensive income of \$171 million in the prior year period. The change was primarily due to the following:

- Foreign currency translation adjustments for the six months ended June 30, 2024 resulted in a \$21 million comprehensive loss, compared to a \$34 million comprehensive gain in the prior period. The comprehensive loss during the current period was primarily attributed to decreases in the Canadian dollar and British Pound.
- Net earnings increased \$38 million, primarily due to higher operating income and lower interest expense.

MANAGEMENT'S DISCUSSION and ANALYSIS of
FINANCIAL CONDITION and RESULTS OF OPERATIONS, continued

New orders in the second quarter increased \$154 million from the comparable prior year period, primarily due to an increase in naval defense orders in the Naval & Power segment, as well as an increase in orders in the Aerospace & Industrial segment for sensors products and surface treatment services within our A&D markets. These increases were partially offset by the timing of orders within our A&D markets in the Defense Electronics segment.

New orders during the six months ended June 30, 2024 increased \$337 million from the comparable prior year period, primarily due to an increase in naval defense orders in the Naval & Power segment. New orders also benefited from an increase in orders for defense electronics equipment in the Defense Electronics segment as well as increase in orders for sensors products and surface treatment services within our A&D markets in the Aerospace & Industrial segment. Changes in new orders by segment are discussed in further detail in the "Results by Business Segment" section below.

Sales in the Aerospace & Industrial segment are primarily generated from the general industrial and aerospace & defense markets, and, to a lesser extent, the power & process markets.

Sales in the second quarter increased \$7 million, or 3%, to \$233 million from the prior year period. Sales in the commercial aerospace market benefited \$9 million from higher OEM sales of sensors and actuation products, as well as surface treatment services, on narrowbody and widebody platforms. In the general industrial market, higher sales of surface treatment services were more than offset by reduced sales of industrial vehicle products to off-highway vehicle platforms.

Sales during the six months ended June 30, 2024 increased \$24 million, or 6%, to \$453 million from the prior year period. In the commercial aerospace market, sales increased \$24 million primarily due to higher OEM sales of sensors and actuation products, as well as surface treatment services, on narrowbody and widebody platforms. Sales in the aerospace defense market benefited from higher actuation development on various fighter jet programs. These increases were partially offset by lower sales in the general industrial market, primarily due to reduced sales of industrial vehicle products to off-highway vehicle platforms.

MANAGEMENT'S DISCUSSION and ANALYSIS of
FINANCIAL CONDITION and RESULTS OF OPERATIONS, continued

Operating income in the second quarter of \$35 million was essentially flat compared to the prior year period, while operating margin decreased 70 basis points to 15.1%, as favorable overhead absorption on higher sales was essentially offset by current period restructuring costs. Operating income during the six months ended June 30, 2024 increased \$1 million, or 1%, to \$63 million from the prior year period, while operating margin decreased 60 basis points to 13.9%, as favorable overhead absorption on higher sales was essentially offset by current period restructuring costs.

New orders in the second quarter and six months ended June 30, 2024 increased \$31 million and \$24 million, respectively, primarily due to an increase in orders for sensors products and surface treatment services within our A&D markets.

Sales in the Defense Electronics segment are primarily to the defense markets and, to a lesser extent, the commercial aerospace market.

Sales in the second quarter increased \$31 million, or 16%, to \$228 million from the prior year period. In the ground defense market, sales increased \$15 million primarily due to higher demand for tactical battlefield communications equipment. Sales in the aerospace defense market benefited \$14 million primarily due to higher demand for embedded computing equipment on various domestic and international helicopter programs. In the commercial aerospace market, sales increased primarily due to higher OEM sales of avionics and electronics on various platforms.

Sales during the six months ended June 30, 2024 increased \$80 million, or 22%, to \$440 million from the prior year period. In the ground defense market, sales increased \$40 million primarily due to higher demand for tactical battlefield communications equipment. Sales in the aerospace defense market increased \$32 million primarily due to higher demand for embedded computing equipment on various helicopter, fighter jet, and unmanned aerial vehicle programs. In the commercial aerospace market, sales benefited from higher OEM demand for avionics and electronics on various platforms.

Operating income in the second quarter increased \$15 million, or 35%, to \$58 million compared to the prior year period, and operating margin increased 370 basis points from the prior year period to 25.5%. Operating income during the six months ended June 30, 2024 increased \$40 million, or 60%, to \$106 million, and operating margin increased 570 basis points from the prior year period to 24.2%. Increases in operating income and operating margin in both respective periods were primarily due to favorable overhead absorption on higher sales, favorable mix on defense electronics and tactical communications products, as well as the benefit of our cost containment initiatives.

Sales in the Naval & Power segment are primarily to the naval defense and power & process markets, and, to a lesser extent, the aerospace defense market.

Sales in the second quarter increased \$42 million, or 15%, to \$323 million from the prior year period. In the naval defense market, sales increased \$26 million primarily due to higher demand on various submarine programs, partially offset by the timing of sales on the CVN-80 aircraft carrier program. Sales in the power & process market benefited \$9 million primarily due to higher commercial nuclear aftermarket sales supporting the maintenance of operating reactors in the United States. In the aerospace defense market, sales increases were primarily due to higher demand for arresting systems equipment supporting various domestic and international customers.

Sales during the six months ended June 30, 2024 increased \$59 million, or 11%, to \$605 million from the prior year period. In the naval defense market, sales increased \$28 million primarily due to higher demand on various submarine programs. Sales in the aerospace defense market benefited \$16 million primarily due to higher demand for arresting systems equipment supporting various domestic and international customers. In the power & process market, sales increased \$14 million primarily due to higher commercial nuclear aftermarket sales supporting the maintenance of operating reactors in North America, partially offset by the wind-down on the China Direct AP1000 program.

Operating income in the second quarter decreased \$1 million, or 1%, to \$46 million, and operating margin decreased 240 basis points from the prior year period to 14.3%, as favorable overhead absorption on higher sales as well as the absence of first year purchase accounting costs from our arresting systems acquisition was more than offset by unfavorable product mix and the timing of development programs.

Aerospace & Defense markets

Sales in the second quarter increased \$76 million, or 16%, to \$542 million against the comparable prior year period, primarily due to higher sales across all markets. Sales in the aerospace defense market increased primarily due to higher demand for both arresting systems equipment supporting various domestic and international customers as well as embedded computing equipment on various domestic and international helicopter programs. In the ground defense market, sales increased primarily due to higher demand for tactical battlefield communications equipment. Sales increases in the naval defense market were primarily due to higher demand on various submarine programs. In the commercial aerospace market, sales increased primarily due to higher demand for OEM sensors and actuation products, as well as surface treatment services, on narrowbody and widebody platforms.

Sales during the six months ended June 30, 2024 increased \$158 million, or 18%, to \$1,032 million, primarily due to higher sales across all markets. Sales in the aerospace defense market increased primarily due to higher demand for both arresting systems equipment supporting various domestic and international customers as well as embedded computing equipment on various helicopter, fighter jet, and unmanned aerial vehicle programs. Sales in the ground defense market increased primarily due to higher demand for tactical battlefield communications equipment. Sales increases in the naval defense market were primarily due to higher demand on various submarine programs. Commercial markets

Sales in the second quarter increased \$4 million, or 2%, to \$243 million. Sales in the power & process market primarily benefited from higher commercial nuclear aftermarket sales supporting the maintenance of operating reactors in the United States. In the general industrial market, higher sales of surface treatment services were more than offset by reduced sales of industrial vehicle products to off-highway vehicle platforms.

Sales during the six months ended June 30, 2024 increased \$5 million, or 1%, to \$465 million. Sales in the power & process market primarily benefited from higher commercial nuclear aftermarket sales supporting the maintenance of operating reactors in North America, partially offset by the wind-down on the China Direct AP1000 program. The general industrial market was negatively impacted by lower sales of industrial vehicle products to off-highway vehicle platforms.

LIQUIDITY AND CAPITAL RESOURCES

Sources and Use of Cash

We derive the majority of our operating cash inflow from receipts on the sale of goods and services and cash outflow for the procurement of materials and labor; cash flow is therefore subject to market fluctuations and conditions. Most of our long-term contracts allow for several billing points (progress or milestone) that provide us with cash receipts as costs are incurred throughout the project rather than upon contract completion, thereby reducing working capital requirements. In some cases, these payments can exceed the costs incurred on a project.

Condensed Consolidated Statements of Cash Flows

(In thousands)

	Six Months Ended	
	June 30, 2024	June 30, 2023
Cash provided by (used for):		
Operating activities	\$ 65,702	\$ 19,353
Investing activities	(56,740)	(22,191)
Financing activities	(27,568)	(104,467)
Effect of exchange-rate changes on cash	(5,697)	9,068
Net decrease in cash and cash equivalents	(24,303)	(98,237)

Net cash provided by operating activities increased \$46 million from the prior year period, primarily due to higher cash earnings and improved working capital.

Net cash used for investing activities increased \$35 million from the prior year period, primarily due to our acquisition of WSC.

Net cash used for financing activities decreased \$77 million from the prior year period, primarily due to the repayment of our 2013 Notes in February 2023. This decrease was partially offset by lower current period net borrowings under our credit facility. Refer to the "Financing Activities" section below for further details.

Financing Activities

Debt

The Corporation's debt outstanding had an average interest rate of 3.8% for both the three and six months ended June 30, 2024, respectively, and 4.1% and 4.0% for the three and six months ended June 30, 2023, respectively. The Corporation's average debt outstanding was \$1.0 billion for both the three and six months ended June 30, 2024, respectively, and \$1.3 billion and \$1.2 billion for the three and six months ended June 30, 2023, respectively.

Credit Agreement

CURTISS-WRIGHT CORPORATION and SUBSIDIARIES
PART I - ITEM 2
MANAGEMENT'S DISCUSSION and ANALYSIS of
FINANCIAL CONDITION and RESULTS OF OPERATIONS, continued

As of June 30, 2024, the Corporation had approximately \$18 million in letters of credit supported by the Credit Agreement. The unused credit available under the Credit Agreement as of June 30, 2024 was \$732 million, which could be borrowed without violating any of our debt covenants.

Repurchase of common stock

During the six months ended June 30, 2024, the Corporation used \$25 million of cash to repurchase approximately 0.1 million outstanding shares under its share repurchase program. During the six months ended June 30, 2023, the Corporation used \$24 million of cash to repurchase approximately 0.1 million outstanding shares under its share repurchase program.

Cash Utilization

Management continually evaluates cash utilization alternatives, including share repurchases, acquisitions, and increased dividends to determine the most beneficial use of available capital resources. We believe that our cash and cash equivalents, cash flow from operations, available borrowings under the credit facility, and ability to raise additional capital through the credit markets are sufficient to meet both the short-term and long-term capital needs of the organization.

Dividends

The Corporation made dividend payments of \$8 million and \$7 million during the six months ended June 30, 2024 and June 30, 2023, respectively. Additionally, beginning in the second quarter, the Corporation increased its quarterly dividend to \$0.21 per share.

Debt Compliance

As of the date of this report, we were in compliance with all debt agreements and credit facility covenants, including our most restrictive covenant, which is our debt to capitalization limit of 60%. The debt to capitalization limit is a measure of our indebtedness (as defined per the notes purchase agreement and credit facility) to capitalization, where capitalization equals debt plus equity, and is the same for and applies to all of our debt agreements and credit facility.

As of June 30, 2024, we had the ability to borrow additional debt of \$2.6 billion without violating our debt to capitalization covenant.

CRITICAL ACCOUNTING POLICIES

Our condensed consolidated financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America. Preparation of these statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. These estimates and assumptions are affected by the application of our accounting policies. Critical accounting policies are those that require application of management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain and may change in subsequent periods. A summary of significant accounting policies and a description of accounting policies that are considered critical may be found in our 2023 Annual Report on Form 10-K, filed with the U.S. Securities and Exchange Commission on February 20, 2024, in the Notes to the Consolidated Financial Statements, Note 1, and the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our market risk during the six months ended June 30, 2024. Information regarding market risk and market risk management policies is more fully described in "Item 7A. Quantitative and Qualitative Disclosures about Market Risk" of our 2023 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

As of June 30, 2024, our management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of June 30, 2024 insofar as they are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and they include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

During the quarter ended June 30, 2024, there have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, we are involved in legal proceedings that are incidental to the operation of our business. Some of these proceedings allege damages relating to asbestos and environmental exposures, intellectual property matters, copyright infringement, personal injury claims, employment and employee benefit matters, government contract issues, commercial or contractual disputes, and acquisitions or divestitures. We continue to defend vigorously against all claims. Although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including assessment of the merits of the particular claim, as well as current accruals and insurance coverage, we do not believe that the disposition of any of these matters, individually or in the aggregate, will have a material adverse effect on our condensed consolidated financial condition, results of operations, and cash flows.

We have been named in pending lawsuits that allege injury from exposure to asbestos. To date, we have not been found liable or paid any material sum of money in settlement in any asbestos-related case. We believe that the minimal use of asbestos in our past operations and the relatively non-friable condition of asbestos in our products make it unlikely that we will face material liability in any asbestos litigation, whether individually or in the aggregate. We maintain insurance coverage for these potential liabilities and we believe adequate coverage exists to cover any unanticipated asbestos liability.

Item 1A. RISK FACTORS

There have been no material changes in our Risk Factors during the six months ended June 30, 2024. Information regarding our Risk Factors is more fully described in "Item 1A. Risk Factors" of our 2023 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about our repurchase of equity securities pertaining to the 2021 Share Repurchase Authorization, as defined below, that are registered by us pursuant to Section 12 of the Securities Exchange Act of 1934, as amended, during the quarter ended June 30, 2024.

	Total Number of shares purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program	Maximum Dollar amount of shares that may yet be Purchased Under the Program
April 1 - April 30	17,364	\$254.05	69,976	\$ 133,537,266
May 1 - May 31	15,953	\$275.63	85,929	\$ 129,140,068
June 1 - June 30	13,857	\$274.01	99,786	\$ 125,343,055
For the quarter ended June 30, 2024	47,174	\$267.21	99,786	\$ 125,343,055

In November 2023, the Corporation adopted two written trading plans under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. The first trading plan includes share repurchases of \$50 million, to be executed equally throughout the 2024 calendar year. The second trading plan includes opportunistic share repurchases up to \$100 million during 2024 to be executed through a 10b5-1 program. The Corporation implemented these written trading plans in connection with its previously authorized \$550 million share repurchase program on September 16, 2021, of which \$100 million remains available for repurchase (the "2021 Share Repurchase Authorization"). The terms of these trading plans can be found in the Corporation's Form 8-K filed with U.S. Securities and Exchange Commission on November 28, 2023.

On May 9, 2024, our Board of Directors authorized the Corporation to repurchase up to an additional \$300 million of its common stock (the "2024 Share Repurchase Authorization"). As of June 30, 2024, the Corporation has not executed against the 2024 Share Repurchase Authorization. The total available authorization under the 2021 Share Repurchase Authorization and the 2024 Share Repurchase Authorization is \$400 million.

The repurchase of the Corporation’s common stock under the 2021 Share Repurchase Authorization and the 2024 Share Repurchase Authorization (together, the “Share Repurchase Programs”) may be made through a variety of methods, which could include open market purchases, accelerated share repurchase transactions, negotiated block transactions, 10b5-1 plans, other transactions that may be structured through investment banking institutions or privately negotiated, or a combination of the foregoing. The Share Repurchase Programs do not have an expiration date and may be amended, discontinued, or terminated by the Corporation’s Board of Directors at any time without prior notice. The timing, price, and volume of share repurchases will depend on market conditions, relevant securities laws, and corporate, tax, regulatory and other relevant considerations.

Item 3. DEFAULTS UPON SENIOR SECURITIES

None.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.

Item 5. OTHER INFORMATION

Director Nomination Process

There have been no material changes in our procedures by which our security holders may recommend nominees to our board of directors during the six months ended June 30, 2024. Information regarding security holder recommendations and nominations for directors is more fully described in the section entitled “Stockholder Nominations for Directors” of our 2024 Proxy Statement on Schedule 14A, which is incorporated by reference to our 2023 Annual Report on Form 10-K.

Insider Adoption or Termination of Trading Arrangements

During the six months ended June 30, 2024, none of our directors or officers (as defined in Rule 16a-1(f) under the Exchange Act) adopted, modified, or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as those terms are defined in Item 408 of Regulation S-K, except as described in the table below:

Name	Title	Action	Character of Trading Arrangement ⁽¹⁾	Adoption Date	Earliest Sale Date	Expiration Date ⁽²⁾	Aggregate # of securities to be purchased or sold ⁽³⁾
Kevin M. Rayment	Vice President and Chief Operating Officer	Adoption	Rule 10b5-1 Trading Arrangement	March 3, 2024	June 3, 2024	December 31, 2024	Up to 8,415 shares to be sold

1. Except as indicated by footnote, the trading arrangement marked as a “Rule 10b5-1 Trading Arrangement” is intended to satisfy the affirmative defense of Rule 10b5-1(c), as amended.
2. The Rule 10b5-1 trading arrangement permits transactions through and including the earlier to occur of (a) the completion of all purchases or sales, (b) the date listed in the table, or (c) such date the trading arrangement is otherwise terminated according to its terms. The trading arrangements also provide for automatic expiration in the event of death, dissolution, bankruptcy, or insolvency of the adopting person.
3. The volume of sales is based on pricing triggers outlined in the Rule 10b5-1 trading Arrangement.

The 10b5-1 Trading Arrangement in the above table included a representation from the officer to the broker administering the plan that such individual (i) was not in possession of any material nonpublic information regarding the Company or the securities subject to the plan and (ii) the plan was entered into good faith and not as part of a plan or scheme to evade securities law. A similar representation was made to the Company in connection with the adoption of the plan. Those representations were made as of the date of adoption of the 10b5-1 plan and speak only as of that date. In making those representations, there is no assurance with respect to any material nonpublic information of which the officer was unaware, or with respect to any

material nonpublic information acquired by the officer or the Company after the date of the representation. Actual sale transactions will be disclosed publicly through Form 144 and Form 4 filings with the SEC, as required.
